About this check

We checked 10 things on 1 Oct 2026. We used only facts anyone can see.

We could not check: Offers of the businesses near you. Some sites stop us from reading them. It is not a sign of a problem.

Where our information comes from: Google, and the web page of each place we could read; Practo; JustDial; Google Maps listings, from Google; Your website; Google Maps, through a data company we pay; Google search results, through a data company we pay; ChatGPT, Gemini and Claude, asked by us; Google reviews, through a data company we pay.

This check is about this address only. It is not about your other shops. This check shows how your business looks from outside. It does not show your sales, your costs or how many people walk in. AI answers come from AI tools. They do not come from people. Use it to see what to fix first. It is not a promise of what will happen.

This is a sample check of another business. Names are changed. The businesses marked with letters are the ones we compared. Numbered businesses are others that Google or AI apps showed. The search words are examples.
