PART 9

? Could not check

Are the shops near you doing anything new?

We could not check offers at the shops near you.

About this report

You can skip this part. It tells you what this report is and how we made it.

This report is about one address

This report is about this address only. It is not about your other shops.

What this report is

This report shows how your shop looks from outside.

That is what customers, Google, Maps and AI apps can see about your shop today.

We show what we found. We tell you what to fix first. You decide what to do.

It does not show your sales, your costs or how many people walk in.

AI answers come from AI tools. They do not come from people.

Use it as a quick check. It is not a promise of what will happen.

This is your first report

This is your first Pulse report.

If you get another one, we will compare it with this one.

Places we checked

We checked the places where a customer may look for your shop.

Not listed means we looked and did not find you.

Could not check means we could not look. You may still be there.

How we picked the shops we compared

They are shops near you on Google.

Each has enough reviews to compare.

Ratings and reviews

We compare a rating only when it rests on 10 or more reviews.

A rating from fewer reviews can mislead, so we show it and do not rank it.

A tie is not counted as higher.

Empty boxes

No info means the listing does not show it, or we could not read it.

Your Google listing

We compared your listing with the shops near you.

A listing shows only what its owner filled in.

A missing item may still be true for your shop.

Maps results change

Where you show up on Maps changes during the day.

We checked at 3:06 pm India time on 1 Oct 2026.

We searched from the points around your shop.

We check again each time we make a report.

Google searches

We searched Google the way a customer would. We checked the first results.

Some results are ads or directories. We counted only places we could tie to a business.

Where you show up changes during the day. We checked on 1 Oct 2026.

How we asked AI apps

We asked ChatGPT, Gemini and Claude what a customer would ask.

We asked on 1 Oct 2026.

AI answers can change from one day to the next.

Counts use the answers we got, not the times we asked.

Next time we ask the same questions. Then you can compare.

Reviews

A review shows the day it was posted.

That is not the day of the visit.

Refunds and revised reports

- Every report goes through our quality check before we send it.
- If your report has not reached you within 24 hours of payment, you get a full refund.
- If you find something wrong in your report, such as a wrong fact about your business, a business that is not in your trade, or a wrong number, tell us within 7 days using the feedback link. We will check it. If it is wrong and we can fix it, we will send you a revised report. If we cannot fix it, we will refund you in full.
- We do not give a refund for a report that passed our quality check and has nothing wrong in it. That includes a report that found little to fix: a healthy listing is a good result.
- One revised report per order.
